Dear Rafael,

APPROVAL AND RECOGNITION OF DAIRY MAINTENANCE COMPOUND

The product **Ripcord Xtra** has been considered in conjunction with the independent assessment report provided and determined to satisfy the requirements of regulation 30(3) of the Animal Products (Dairy) Regulations 2005 and regulation 43 of the Raw Milk for Sale Consumers Regulations 2015, when used in accordance with the label.

The product **Ripcord Xtra** has been assessed and is approved for use in farm dairies and recognised for use in dairy premises when used in accordance with the label instructions.

This approval of the compound is subject to the following conditions:

1. To be used in accordance with label instructions.
2. Must not be used on milk contact surfaces.
3. Must not be used in areas where milk is exposed or stored, including milking and milk storage areas.
4. Animal feed contact surfaces must be rinsed after use of this product.
5. Must not be used around milking animals.
6. The surrounding area must be out of service and well ventilated during application/use.
7. Milk contact surfaces in the vicinity of the farm dairy must be cleaned and rinsed after use.

This recognition of the compound is subject to the following conditions:

1. To be used in accordance with label instructions.
2. Must not be used on food contact surfaces.
3. Must not be used in areas where milk, dairy material, product or ingredients are processed.
4. Should incidental contact with milk or food surfaces occur, the surfaces must be thoroughly cleaned and rinsed to ensure no residue remains.
5. The food area must be out of service and ventilated during application.
6. No contact with food or food contact surfaces permitted.
7. This product must not be used on food or food packaging contact surfaces.

Where this **approval** is stated on the product label, the statement "MPI approved for use in farm dairies" is to be used, unless an alternative is agreed in writing by MPI.

Where this **recognition** is stated on the product label, the statement "MPI recognised for use in dairy processing" is to be used, unless an alternative is agreed in writing by MPI.

Should this product be determined to be unsatisfactory when used as recommended by the manufacturer or an agent of the manufacturer at the stated dosage, MPI may withdraw this approval and recognition.

Review

This approval & recognition is valid for a maximum period of 5 years but is subject to periodic review and may be withdrawn at any time should the Director-General determine that there is sufficient evidence that the products are not fit for the purpose for which this approval & recognition applies. You will be issued a letter prior to the review date, which is set at **8 November 2026**, but you are responsible for ensuring that this review is completed if you wish to retain MPI approval & recognition of the above dairy maintenance compound.

Yours faithfully
